REQUEST FOR A CORRECTED FILING RECEIPT

In the United States Patent Application No. 10/761,565 to Hruby *et al.*, please note that the filing receipt (copy enclosed and marked in red) issued in the subject application incorrectly shows the filing date of the application.

The correct filing date of this application is "January 21, 2004", as shown in red on the attached filing receipt. Also attached is a copy of our patent application transmittal letter dated January 21, 2004 certifying that the subject patent application was deposited with the United States Postal Service on January 21, 2004 under Express Mail Certificate No. EV364175569US, along with a Delivery Confirmation Notice from the United States Postal Service showing a delivery date of January 22, 2004 at the U.S. Patent Office. Also attached are copies of our postcard receipts for the subject patent application and the Assignment Recordation Cover Sheet, both of which were filed with the Patent Office in the same Express Mail envelope. The U.S. Patent and Trademark Office's Serial number and date stamped on the Assignment postcard correctly indicates the filing date of January 21, 2004, although the patent application postcard incorrectly indicates a filing date of January 22, 2004. Please make the above-specified corrections and issue a corrected filing receipt. Thank you for your cooperation.

Respectfully submitted,

Jason D. Shanske

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 184, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
